

ARMD 2011 Level 17

Tax Evasion

Michael Hecher, Michael May

Institute of Computer Graphics and Algorithms

Vienna University of Technology

- You are an 'honest' business man
- Your 'honest' business went well
- Now you have a lot of money – **dirty money**
- But in **TWO minutes** the tax investigators will come
- You have to **get rid of** what you couldn't hide

Lobbyist

Banker

- Happily there are other 'honest' business men
- Try to give them your dirty money
- This works best by shooting them unconscious
- Some are stronger than others
- Only front hits count, because even crooks have rules
- They shoot back
- They get better the more money you loose

Gambling
Machine

- **Don't hit** the 'dirty' gambling machines others use to loose money with
- **Shoot** by touching the screen
- **Dodge** by moving with the device

Hit them,
with that:

Don't
Hit That!

Dodge
those:

Don't get hit

Score: -8 Coins Time: 01:34

Score: 36 Coins Time: 01:27

- Simple physics
 - ◆ Plane, Sphere, Box
- Resource loading
 - ◆ On demand
 - ◆ Distinction between CPU and GPU resources
 - CPU: meshes
 - GPU: textures, shaders
 - Good idea – would be easy to support GPU meshes
 - ◆ Single texture
