

This game is a Super-Mario-like 3-d level-based jump'n'run. Help the shrunken shrink technician make his way through the bricks and *enjoy his funny sounds*.

Depending on the level, you may need to...

- jump (**SPACE** key)
 - do somersaults=saltos (left or right **ALT** key)
 - take bricks (select and take: **TAB** key and **Q** key) and carry them (left or right **mouse button**)
 - ...throw them against a wall of bricks (**F** key)
 - ...or stick them on other bricks in order to build bridges (mouse buttons and **E** key, hold it down until it sticks on at least *two knobs*)
- ...in order to reach the *target girl* (see next page)

view & navigation

- *rotate*: move the mouse
- *walk*: **W/A/S/D** keys
- *side view*: **V** key

The side view is very useful if you want to *stick a brick*.

brick selection

If multiple bricks are in the tractor beam's range, you may select the desired one by pressing the **TAB** key. Then press the **Q** key to actually take it.
