Lab Part 1

A report (at least 2 A4 pages) has to be submitted via email (jschmidt@cg.tuwien.ac.at) until December 19th, 2018.

You can decide whether you would like to write the report in German or in English.

In the report, please answer the following questions:

1. Describe your results and findings of task 1. Use screenshots to outline how you solved the visual data analysis.

2. Describe your results and findings of task 2. Use screenshots to outline how you solved the visual data analysis.

3. Describe your results and findings of task 3. Use screenshots to outline how you solved the visual data analysis.

4. Which tasks were easier to solve with the visual analysis tools, and which not?

5. Which problems/challenges did you encounter when using only the statistical methods, or only the visual analysis techniques?

6. For which use cases do you think it makes more sense to use the visual analysis tools?
