**Lab Part 2**

A report (at least 2 A4 pages) has to be submitted via email (jschmidt@cg.tuwien.ac.at) until January 30th, 2019.

You can decide whether you would like to write the report in German or in English.

For every library/application that you used, please use the evaluation sheet template below to rate it. For every evaluation criteria, give a grade between 1 and 5 (school grades, 1 is best) and justify your decision:

<table>
<thead>
<tr>
<th>Name: ...</th>
</tr>
</thead>
</table>
| **Data Handling**  
How easy is it to load data and to do simple data handling tasks like filtering? | Grade (1-5) | Justification: ... |
| **User Guidance**  
How easy is it to find the necessary functions and get help on certain features? In case of a library, how would you rate the documentation? | Grade (1-5) | Justification: ... |
| **Feature Richness**  
How many visualization features are provided? | Grade (1-5) | Justification: ... |
| **Innovation**  
Are innovative visualizations provided, or only basic charts? | Grade (1-5) | Justification: ... |
| **Flexibility**  
Is it possible to adjust the visualizations to your needs? | Grade (1-5) | Justification: ... |
| **Interaction**  
Is it possible to create interactive visualizations? | Grade (1-5) | Justification: ... |
<p>| <strong>Exploration</strong>  | Grade (1-5) | Justification: ... |</p>
<table>
<thead>
<tr>
<th>How would you rate the usability for exploratory data analysis?</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Presentation</strong> How would you rate the usability for creating visualizations for presentation?</td>
<td>Grade (1-5)</td>
</tr>
</tbody>
</table>
