Call for submission - Themes - Venue - Organisation - Submission - Programme - Promotion

Paper/Poster
are only a few research areas of the current state of art enabling to increase the comprehension of the information on which is based the infrastructure of our society. The International Conference on Information Visualisation is concentrated around these hot topics. It is at its 22\textsuperscript{th} edition. The past edition in London has seen the participation of researchers from 20 countries. As in the previous edition, also this year there will be the opportunity of starting international cooperations and European research projects, and of discussing with international relevance keynote speakers. The conference is articulated in symposia, with details and further information available at the Symposia webpage.

Your work may be submitted as
- a full paper
- a short paper
- a \texttt{poster presentation} (displayed online or during the SHOWCASE event)
