CALL FOR STATE-OF-THE-ART REPORTS

State-of-the-Art Reports (STARs) provide an up-to-date and comprehensive overview of a special topic of current interest related to Computer Graphics. We welcome submissions on all topics relevant to EUROGRAPHICS, and particularly encourage STARs on topics that have not been covered in any recent edition. STAR reports on cross-sectional, multi-disciplinary areas are also highly welcomed. A STAR can also address the use of Computer Graphics techniques in a different scientific discipline or in industrial practice. For examples of suitable STAR topics, please refer to the EUROGRAPHICS digital library. A list of recent STARs can be found here.

Accepted STARs will be published in a special issue of Computer Graphics Forum, which appears right before the EUROGRAPHICS conference. The journal status of the proceedings requires a two-stage review process with conditional acceptance after the first round and final acceptance based on the revised submissions. Submissions needing a major revision will be transferred to the standard submission track of Computer Graphics Forum.

At EUROGRAPHICS'2021, the authors of a STAR will be given 90 minutes to present the report at a level that allows non-experts in the particular domain to follow the presentation.

TIMELINE

October 29, 2020	STAR abstract submission deadline
November 3, 2020	Full STAR submission deadline
December 22, 2020	First review notification
February 23, 2021	Revised STAR submission
March 9, 2021	Second review notification
