GASTVORTRAG

Grégoire Cliquet
Director of the READi design_Lab

"Tangible Interfaces and Mixed Reality: A step toward digital augmented environments"

Abstract:

This lecture aims through examples of experiments lead at l'Ecole de design/READi to show and discuss the disappearing of boundaries between the digital and real world.

Biography:

Gregoire Cliquet is the Director of the READi design_Lab launched in 2010. He is in charge of the Interaction design department at l'Ecole de design Nantes Atlantique for 10 years (since 2000) and Co-founder of ARN, NPO dedicated to Networked Art Practices / 1997-2000. He has a PhD in Engineering Science, a Master in Virtual Reality and a Bachelor in Digital Media.
